**Write an "I Used to….. But Then…." poem,** following this model.

I used to think that war could never be abolished,
> that war is in our nature, that people could not be convinced to give
> war up.
But then I thought, "War is not in MY nature".
> We've banned smoking in public places.
> We've given up legalized slavery.
> Women have the vote.
Maybe we ARE smart enough to abolish war.
